## APPLE VALLEY IRRIGATION ~ SERVICE CONTRACT

122 Spring St., Unit B3, Southington CT 06489 ~ PLM.289553-J3  
860-426-3377 ~ service@applevalleyirrigation.com

*The purpose of our Service Contract is to offer our customers not only the advantage of having their annual services automatically scheduled and performed but also to offer our contracted customers the advantage of a 10% discount on all services, labor, and parts as well as priority scheduling.*

**Comprehensive Spring Start Up:** We will email you in the third week of March letting you know the date you have been scheduled to have the Spring Start Up performed on your system. We request that you leave access to the water source and timer on the date of your appointment if you are not able to activate them prior. We DO NOT require access to the water source and timer for MOST systems if you have turned the water on to the system prior to our arrival. However, having access will ensure the benefit of the full service. The purpose of this service is to inspect your total system, perform minor fine-tuning of your system for optimum performance and efficiency and to make a list of any issues or deficiencies that may be present and need repair or upgrade.

**Mid-Season Tune Up:** We do not require anyone to be home for this service. If there is a specific concern, we ask that you call or email us regarding your concerns. You can call the office or email us to check on your scheduled appointment or to have the work order noted. This service will be performed between the first day of summer and the end of July. The purpose of this service is to inspect your total system, perform minor fine-tuning of your system for optimum performance and efficiency and to make a list of any issues or deficiencies that may be present and need repair or upgrade.

**Backflow Certification Test:** We do not require anyone to be home for this service. We only contact customers whose backflow prevention device is not accessible from the outside. A copy of the test report will be provided to you with your invoice. Another copy will be sent to the appropriate Public Water Authority. A third copy is kept in your file for 5 years.

**Winterization:** We will email you in the third week of September letting you know the date you have been scheduled to have your Winterization Service performed. We DO NOT need access for MOST systems, so we do not require anyone to be home unless otherwise notified. We ask you to have the water off before our arrival. It is also recommended you turn off your watering schedule via the controller.

**Stand Alone Service Call:** This is scheduled by request to address specific concerns the customer has regarding their irrigation system. Labor, up to 1 hour, is included. Parts are additional.

**Note:** If we arrive onsite to find that confirmed work has been performed by others and is no longer needed, you will be billed a \$50 trip charge. If we arrive at a scheduled appointment and no one is home or access has not been left as agreed AND we are unable to perform the service due to those reasons, you will be billed a \$50 trip charge.

**Terms of Service:**

- Invoices are due and payable upon receipt. Late charges are assessed after 30 days.
- We are required to collect CT State Sales Tax on all Services, Labor and Parts. The prices listed in this contract DO NOT INCLUDE TAXES (6.35%) .
- Parts and labor will be additional to correct any problems noted at any service and will require your approval prior to the repairs being made.
- Our current labor rate is \$125 per hour. We bill repair work in quarter hour increments when done in conjunction with scheduled maintenance. We bill a minimum one-hour charge for stand-alone service calls regardless of time spent on property due to travel and set up. Labor in excess of an hour on stand-alone service calls is billed in quarter hour increments after the first hour.
- Should you have an issue with the service or repair we have made we must be notified within 21 days. When we leave a site, the service or repair is deemed to be satisfactory. If an issue arises afterwards, it is the homeowner's responsibility to monitor their system and report any issues to us within the 21-day period.
- You agree to pay the full annual cost of services contracted even if you cancel this contract unless you provide proof of a change in residency or in the case of death.
- We accept the following forms of payment: Personal/Business Check, Visa, MasterCard, Discover and American Express.
- Once an invoice is 30 days old it will incur a \$15 late fee and interest on unpaid balances will accrue at a rate of 18% per annum.

**Please initial your choice(s) and complete the information below and return this contract to: Apple Valley Irrigation, 122 Spring St., Unit B3, Southington CT 06489 ~ PLM.289553-J3 or email to [service@applevalleyirrigation.com](mailto:service@applevalleyirrigation.com)**
